

DISASTER MANAGEMENT PLAN OF DISTRICT ROHTAK

Disaster are events that come unannounced and the main duty of district administration then becomes the proper management of resources, be it material, physical or manpower. As per the Government directions, in the state, every district must have a District Disaster Management Plan. Accordingly, a detailed District Disaster Management Plan has been prepared for the District Rohtak. While preparing this document, an effort has been made to: -

- Identify probable Disaster/Disaster situations in this district and nodal officers for each such situation have been deputed. The duties of all the members of District Disaster Management Committee have been clearly defined.
- Evolve a Standard Operative Procedure of a general nature keeping in view the common requirements of various Disaster situations with special emphasis on control room operation and seeking help from outside the district.
- Touch upon in detail the inventory of resources at the disposal of the Administration and the knowledge of experts for handling the situation.
- Project a detailed individual Disaster management plan for handling important Disaster/Disaster situations.

Our main aim is to reduce vulnerability and also to minimize the destruction caused by all of these types of Disaster, be it natural or manmade. This is not an easy task and in order to achieve this target and also keeping in view the population and the of multiplicity of the hazards and Disaster, which can occur, we are of firm opinion that the government cannot resolve this issue and the people are not prepared to pay the price in terms of massive casualties and economic losses, the task, though difficult but is achievable

Introduction

Disaster threatens sustainable economic development worldwide. In the past twenty years, earthquakes, floods, tropical storms, droughts and other calamities have killed millions of people, inflicted injury, disease and caused homelessness and misery to around one billion others in the world. These have caused damage to infrastructure worth millions of rupees. Disaster destroys decades of human effort and investments, thereby, placing new demands on society for reconstruction and rehabilitation. Disaster management thus, requires multi-disciplinary and proactive approach. The community, civil society organizations, media and the proverbial man on the street, every one has to play a role in case such exigency occurs.

The various prevention and mitigation measures outlined below are aimed at building up capabilities as also how to deal with Disaster. The objective of a Disaster management plan is to localize a Disaster and contain its effect to the greatest extent so as

to minimize its impact on life, environment and property. Response to Disaster, in the absence of a well-defined plan, would be arbitrary, leading to overemphasis of actions of some actions and absence of other critical actions. A formal plan for managing Disaster is, therefore, necessary. This Disaster management plan has a strong preventive focus which aims at reducing the frequency of occurrence of such Disaster while at the same time, it includes a plan of action for earthquakes, floods, cyclones, epidemics, industrial and chemical accidents, road accidents and fires.

Keeping in view, all the possible aspects of the aforesaid problem in mind and to keep the Administration prepared in all possible ways to respond properly to various Disaster situations within shortest possible time, possible Disaster situations/Disaster have been identified and the component plans have also been identified & mentioned in detail in this document:

(A) Natural Calamities

- Floods
- Earthquake
- Biological Disaster or Epidemic of Human/livestock/crops
- Fire
- Locust attack
- Hailstorm

(B) Man Made Calamities

- (i) Industrial Disaster
- (ii) Radiological Disaster
- (iii) Accidents
- (iv) Railways
- (v) Road
- (vi) Air
- (vii) Building Collapse
- (viii) Stampede at crowded religious functions/ melas/ processions.
- (ix) Food Poisoning
- (x) Bomb Blast (Terrorist Activities)

The mode, degree and extent of response to fight out any Disaster depends upon the nature, degree and extent of Disaster, but some of the points are almost common to all kinds of situations. For example, it is to be ensured in all types of Disaster that first of all appropriate prevention steps are to be taken. Secondly, preparedness is required to contain the damages and casualties resulting from the Disaster. Thirdly, steps for reclamation and restoration of community life within a reasonable time will have to be taken care of.

Similarly, it is common to all situations that: -

1. Central Control Rooms are to be established.
2. District Disaster Management Committee is to come into action
3. A general line of action and some special duties to various officers and departments will have to be assigned.
4. Voluntary Organizations may have to be involved and their role will have to be clearly specified and coordinated.
5. Media may have to be briefed to suppress all kinds of rumors.
6. Information regarding resource inventory of Health Services, Transport Services, Evacuation & Rehabilitation Centers , and Food etc. may be needed.

Broad guidelines have been given in the following pages and "Standard Procedure" has been formulated which is to be adhered to by all concerned. Once the Disaster takes place and the authorities are informed of the same, they will take the necessary action with the help of the individual Disaster management plans prepared for the respective Disaster/situations.

The main objectives of various preparedness measures are: -

- i) Minimizing the loss of human lives.
- ii) Minimizing the loss of livestock.
- iii) Minimizing the loss to property and infrastructure.
- iv) Minimizing ill effects on the health of affected population.
- v) Bringing the human activities in the locality to normal condition soon after.

To achieve the above objectives different tasks have to be performed by different Government Departments and other agencies before, during and after the Disaster. Each Department's role and responsibilities have to be clearly identified and action plan needs to be drawn up by each department. For close cooperation between the various Department / Agencies, close coordination is required at the District. Headquarter as well as at the Tehsil Headquarter. Deputy Commissioner Rohtak will coordinate the work at the District. Headquarter. SDM's are to co-ordinate all activities at the Sub

The responsibility to manage all sorts of Disaster in the district rests with the "District Disaster Management Committee" headed by the Deputy Commissioner-cum-District Magistrate Rohtak, who may, depending upon the gravity of the situation, seek the help of "State Disaster Management Committee" and the "National Disaster Management Committee".

For operational expediency, the concerned Sub Divisional Magistrate, Deputy Superintendent of Police (DSP), Station House Officer and Tehsildar with their subordinate staff will swing into action immediately after receipt of information regarding any Disaster. The SDO/SDM will immediately take over as in charge of the site.

They will try their best to contain the situation with the available local resources. However, if they find that the situation is beyond their control and the district level resource mobilization is required, they will seek the help of their superiors or call the meeting of Disaster Management Committee. Operation Model for such situation is shown below.

STEPS OF DISASTER MANAGEMENT PLAN

Prevention of Disaster

First step will be to prevent the Disaster and each nodal officer shall visualize and ensure that the preventive actions have been taken well in advance by him to avert any Disaster situation. For this purpose, appropriate warning system, patrolling of vulnerable areas will also be intensified during the Disaster prone times.

Containing of Disaster

The second step shall be to contain the Disaster. This would involve expert advice from the sources within the district and also out of the district, if required. Army help or help from State Level Disaster Management Committee will also be sought, if need be. This step will also involve establishing of control rooms as per requirements.

Rescue Operations

Simultaneously, with the second step, rescue operations will also start. This would include evacuation, if needed, transportation of evacuees etc. Identification of evacuee centers for this purpose should be made well in advance

Relief, Shelter & Restoration

This would involve providing relief like food shelter and clothing, first aid and medical aid to the evacuees and also to the livestock. This operation would also include restoration of the same status, as it existed before the Disaster.

Establishing Control Room

During any Disaster, all activities of Disaster management shall be conducted from the Central Control Room. From this center, the necessary command shall be issued, action thereon shall be coordinated and the information shall flow down the line.

A Control Room for dealing with Law and Order problems is located in Rohtak Telephone numbers 250931 to function round the clock. It is equipped with wireless/R. T. Sets and Telephone sets (Both P & T and Hot Lines).

The camp office of D.C Rohtak (245533) & S.S.P (250131) shall also function as Emergency Control Room round the Clock.

Generally, this Control Room functions from 9.00AM to 5.00 PM during working hours/days, but if emergent situation arises, this will function round the clock and monitored by Executive Magistrate or an ADC nominated by the District Magistrate.

The system of Control Rooms in Police lines (for Law and Order) and in D.C office (for Natural and other Disaster) at the district level is for a situation of large scale and wide spread Disaster in the district. In case of localized Law and Order problems or Natural and other Disaster, Control Rooms are generally established at the concerned Police Station or SDM's Office respectively or at any other strategic place near to the site of the Disaster. For operational expediency, this system shall be continued and their telephone numbers are as under: -

		Telephone No.	
		Office	Residence
1	D.M. Rohtak	250252 268255	245588 245533
2	S.P. Rohtak	256230	250813 250131
3	Addl. S.P. Rohtak	256230	252885
4	S.D.M. Rohtak	252101	241069
5	S.D.M. Meham	233148	233145
6	D.S.P. City Rohtak	255270	252885
7	D.S.P. Hqr.	255270	245121
8	D.S.P. Detective	255270	271672
9	D.S.P. Meham	233830	233831
10	L.O. Rohtak	250279	--
11	Police Control Room Rohtak	250931	--

Control Rooms will be equipped with detailed location maps of the district, towns & tehsils showing locations of Fire Stations, P.H.Cs, veterinary Hospitals, Roads, Index Drainage Plan, Rail Lines etc. A detailed list of the officers posted in the district with their residential address and telephone numbers shall also be readily available there.

MANNING OF CONTROL ROOM

Police Control Rooms located in the district police office are manned round the clock by persons of the rank of SI/ASI. Generally, he receives the information / messages and sends the same to the concerned authorities. Likewise, the office superintendent normally mans the D.C. Office Control room. In emergent situations the control Rooms shall be manned as detailed below: -

LEVEL-I OPERATION

When the emergency can be managed with the resources available within the district :-

- Police Control Room with E.M and Dy.S.P nominated by DM and SSP respectively.

- D.C Office Control Room with an E.M or Senior Gazetted Officer nominated by the Deputy Commissioner.

LEVEL-II OPERATION

When resources from the State/Central Government are required to manage the emergency:

Police Control Room with an ADM or EM nominated by DM and DSPs nominated by the SSP.

D.C. Office Control Room with ADC

Normally DSP (HQ) Rohtak, will be Officer-in-charge, Police Control Rooms. When Information of any Disaster situation is received at the Control Room, the person on duty will pass on the information not only to DC and SP concerned but also to ADC, SDM and DSP (HQ) in the concerned police district in cases of Law and Order problem/ Disaster and to ADC SDM and DSP(HQ) in the concerned police district in cases of natural and other calamities / Disaster.

Deputy Commissioner/Chairman shall

1. Summon a meeting of the District Disaster Management Committee if required & City Magistrate shall ensure attendance of all the members by informing them well in advance.
2. Implement the concerned contingency plan.
3. Coordinate the activities of various agencies /organizations and
4. If necessary invoke, help from the local Army unit, the State Government and the Central government.

SSP Rohtak/Vice Chairman/Vice Chairperson shall:

1. Arrange to give initial information to the DC and SDMs through Police Control Rooms.
2. Maintain Law and order after such an incident. He /She will take all steps to ensure safety of life and property of every citizen in consultation with the District Magistrate. Will also take steps to cordon off the hospital area from the mob.
3. Establish nakas after the incident to apprehend the culprits.
4. Assist the rescue teams in shifting the injured to the hospital.
5. Conduct traffic control operation at the site of the emergency.
6. Control entry to the emergency area by establishing various naka points.
7. Protect the vital installations and the religious institutions during sensitive situations.
8. Provide assistance in arranging for evacuation and shelter points for the evacuees.
9. Provide the wireless communication facility wherever required urgently by the DM.

10. Take effective steps to make necessary security arrangements to guard the evacuated residential areas round the clock and protect property and the belongings left behind by the evacuees even in war situations.
11. Carry out other function as laid down in the Internal Security Scheme.
12. Provide flood lights where ever possible.

Addl. Deputy Commissioner, Rohtak shall:

- Assist the District Magistrate in discharging his functions as required by him from time to time.
- Coordinate and mobilize men and materials from various panchayats.
- Coordinate relief efforts.

District Transport officer cum SDM shall:

- i) Provide transport mechanism for evacuation in the form of Private buses, Trucks, Tempoes.
- ii) Requisitioning the Govt. Vehicles for evacuation and relief operations.
- iii) Make arrangements for trucks / tempos for transportation of food stocks, essential commodities /persons/live stocks etc.
- iv) Arrange cranes for removal blockades.

Chief Medical officer / Civil Surgeon shall:

1. Mobilize and coordinate the emergency medical and Health Services consisting of: -
 - Emergency treatment in the Hospital and ambulance services to the injured & needy.
 - Casualty services including managing of First Aid Posts in the affected areas.
 - Transporting the seriously injured persons to the bigger & specialized hospitals with adequate facilities, equipment & specialist doctors.
 - Health and OPD services in the community shelters in case of evacuation.
 - Setting up mobile medical teams to visit the affected areas to provide health services, especially to the handicapped, children, old persons and women.
 - Ensure adequate supply of medical drugs and services.
1. Ensure postmortem of the dead bodies getting conducted expeditiously.
2. Provide chlorine tablets or other water purifier medicines wherever required.
3. Provide inoculation / vaccination against various epidemic diseases especially to the children & women.

4. To keep a check on the quality/ hygiene of food being served in the relief centers & the areas around it.
5. Co-opt & coordinate the activities of various voluntary organizations such as Red Cross and Others.

Civil Surgeon Rohtak will be responsible to supply all kind or medicines in the relief camps and other affected areas in Rohtak District. He will ensure the availability of sufficient quantity of medicines including the medicines used for the care of the snake-bite during the flood seasons with all the medical teams will be operational and moving in the towns and villages during the flood season and emergency team will be available in the hospital round the clock.

The S.M.O. posted in the Sub Divisions will submit daily progress report to the concerned SDMs. He will also ensure that proper arrangement for medical treatment is available in the relief camps. He will further ensure that adequate steps are taken to prevent any scope of outbreak of any epidemic like situation.

On receipt of information regarding Accident where casualties are expected, the CS will constitute two teams of Doctors and paramedicals , Team "A" and Team "B"

1. **The Team "A"** headed by CS will rush to the accident site immediately along with 6/7 doctors and 15-20 paramedics.
2. **The Team "B"** headed by the senior most doctors amongst them will contact the local hospitals (Railway/Govt./Private) near the accident site to provide medical treatment to the injured passengers.

Duties of Team "A":

A Control Room at site must immediately be set up and CS should sit in the site control office. As leader of the Team "A", he would take control of the site and will co-ordinate all relief measures and distribute the duties amongst doctors available as below:

- i. One doctor to be given duties to look after dead bodies.
- ii. One doctor will prepare list of persons dead/injured.
- iii. One/two doctors will be asked to visit the hospitals where the injured passengers have been already shifted.
- iv. Rest of the doctors will be asked to be involved in rescue operations, to provide medical treatment to the injured passengers and their transport to nearby hospitals.
- v. CS will immediately relay tentative figures of dead and injured (not necessarily indicating gravity of injured and their details). Then the details of injured and dead with names and injuries will be prepared.
- vi Once the preliminary list of persons dead/injured have been prepared, the list should be signed by the CS.

Duties of Doctor In charge of the dead bodies:

- i. The Doctor will arrange to shift the dead bodies from the track /bogies/road to a nominated place at the accident site with the help of all the paramedical staff, M.S.S. Rohtak, NSS/NCC volunteers, Scouts members, Civil Defence members and Rly/Non-Rly volunteers available at the site. All the dead bodies should be brought at a central place for easier identification.
- ii. To put cloth label (white cloth of 12" in to 9" written by Marker pen) on each dead body on the chest just below the neck. The label should be as below:
- iii. To take four photographs of each dead body. Two should be close up of face and the label as above and two should be of full length of the dead body.
- iv. After this, the dead bodies will be handed over to G.R.P./Police for needful.
- v. For dead bodies whose relatives are not readily available and a delay is expected, CS will arrange for preservation of the dead bodies by various processes like preservation by ice, dry ice, embalming etc.. The bodies may be kept in mortuaries till handing over.
- vi. Wooden coffins to be arranged on need basis.

Duties of the doctors who will prepare the list of dead and injured persons:

He/She will collect information from other doctors about the details of the dead persons and injured persons. He/she will prepare a list of persons dead/injured in three copies.

Duties the doctors deputed to visit different hospitals where injured passengers are admitted:

- a. Before they leave the site, they should note down the telephone numbers of the site control room and other doctors at the site, mobile phone, for quick communication.
- b. They will arrange their own transport (hire vehicles if required). In case government vehicles are not available, they should hire Taxi for their movement. Doctors going to different hospitals should have separate vehicles.
- c. At the Hospital, they should first collect information about the dead/injured persons, their name, age, sex, address, telephone no., name and telephone no. of relatives/friends, nature of the injury, etc.. These information should be immediately communicated to CS at accident site.
- d. He/She should make an assessment about the capabilities of the hospital to handle the injured persons. He/She should decide whether the patient needs to be shifted to other Hospitals with better facilities and then arrange to shift the patient.
- e. Normally one doctor should be looking after one Hospital, but when large no. of Hospitals are involved 2/3 Hospitals may be given to one Doctor. In that case, the Doctor, in consultation with CS, should station himself to the Hospital where maximum no. of patients are admitted.

Duties of the Doctors involved in rescue operation:

1. Should arrange Ambulance/ other transport immediately in advance to transport injured patients.

2. The injured should be given preliminary treatment. The dead bodies should be handed over to the Doctor In charge of dead bodies.
3. Detailed information about injured persons to be given to the Doctor preparing list of injured persons.
4. Arrangements to be made for transport of patients to the nearest hospitals
5. Detailed search to be launched for any person or dead body trapped in the bathroom/under debris, etc.

S.E. Public Health shall:

- i) Ensure sufficient supply of clean and potable drinking water during the disaster at the site and at the evacuation and relief centers.
- ii) Ensure availability of sufficient number of water tankers for supply of the drinking water.
- iii) Establish temporary latrines/urinals at relief/evacuation centers.

Executive Engineer, PWD Provincial Division shall:

- o Extend necessary help in construction of road diversions and other civil works during Disaster situation.
- o Help in arranging the mechanical equipment whenever required.
- o Carry out rescue operation during a building collapse.
- o Barricading to cordon off affected areas.

Superintending Engineer HVPNL, Rohtak shall:

- o Ensure uninterrupted electricity supply to all the important installations specially the relief centers, district administration offices and hospitals.
- o Isolate the affected/damaged area in case of fire, floods and earthquake etc.
- o Ensure restoration of electricity supply to the affected area as soon as possible.
- o Make provision of floodlights, searchlights, emergency lights etc. during the night operations. He shall also ensure availability of electric generators, if necessary.

Commandant, Home Guards, Rohtak shall ensure availability of Home Guards at the disposal of the District Core Committee

- i) For fire fighting operations.
- ii) Rescue operations during natural calamities like flood.
- iii) To provide Assistance for setting up relief & evacuation centers.
- iv) For other kinds of medical assistance required for shifting injured to the hospitals etc.

v) To provide assistance to Police forces for maintaining proper security and law and order duties.

General Manager, Haryana Roadways, Rohtak shall:

- i) Ensure availability of Govt. buses for the relief operation.
- ii) Ensure availability of sufficient number of drivers & conductors during roadways strikes & Bandh calls given by various organizations.
- iii) Ensure parking of buses at safe places like police lines & Police Stations during emergencies / Bandh Calls / Strikes etc.

DFSC, Rohtak will

1. Provide food both cooked and raw.
2. Provide tarpaulins if and when required.
3. Coordinate with DMOs and DMs to ensure proper supply of essential commodities like petrol and diesel.

Liaison with Fire Tender Deptt.

In case of outbreak of serious fire in Rohtak City and its adjoining colonies, immediately the Municipal Fire Brigade will be informed on telephone at number 244488, 101 or by special messenger and the senior most Police Officer present at the Hqrs. shall immediately proceed to the spot and take charge of the Police force gathered there.

2. Immediately on the receipt of information regarding the outbreak of fire an alarm will be sounded in the Police Lines through the Bugler or by beating the Magazine guard. Simultaneously the Police Station City Rohtak, Civil Lines Rohtak, Urban Estate Rohtak & Sadar Rohtak will be informed on the phone. All officers and men so collected shall be armed with lathies and a reasonable number rushed to the spot, the scene of fire, by the shortest route and quickest means of transport available. On reaching the spot, they will do what-ever is possible and within their means to extinguish the fire, prevent it from instructions contained in P.R. 28.22 and 28.23 will be strictly complied with.

3. In serious cases the senior Police Officer at the scene of fire shall inform the District Magistrate/SDO (Civil) or the City Magistrate having jurisdiction. He shall also arrange if necessary, for the attendance of a Doctor or Ambulance. He will also have the scene of fire cordoned off with a view to: -

- a) Keep back the crowd.
- b) Protect the premises of fire and adjoining premises from being looted.
- c) Arrange for property removed from building in the neighborhood to be placed under protection in place where it will not impede the operations of fire fighters and
- d) Assists in the removal of such property when asked to do so by the owners.

4. The Senior Police Officer will inform the Supdt. Water Works on Telephone No. 244417 or through a cycle orderly about the locality of the scene of the fire to arrange pressure of water.

5. The Municipal Committee Rohtak is maintaining a Fire Brigade service with the strength of the following: -

Superintendent (SPO)	= 1
Superintendent (ASPO)	= 1
Leading Firemen	= 3
Driver/Operator	= 2
Firemen	=20
Total	=27

Their fire fighting apparatus consists of the following: -

- i) Motor Fire Engine comprising of three tanks of 450 Galans each capacity with a pump giving a pump discharge of 400 Gls. For minute of each.
- ii) Portable Coventry Climax Patrol driven pump of 250 Glns. Per minutes out put.
- iii) One jeep.
- iv) Delivery Hoses 2 dia 750 Ft.
- v) Suction Hose 16 Ft.

6. With the above object in view, the senior Police Officer will make such disposition of the force as may be appropriate and may requisite as much force from the Lines as necessary and available.

7. Discipline in the force will be maintained strictly and at all costs.

8. There are 666 Stand Posts (Water Tape) and 37 fire Hydrants in the Municipal area. The Officers at the Hqrs. with the collaboration of the Superintendent Water Works and Superintendent Fire Brigade must familiarize themselves with their location.
